No. 7

Raymond Sugar Factory Has Been Sold

News Notes

Next Sunday will be Priesthood Meeting, and Board Meeting of all the Stake Auxiliaries.

The ranks of the world's unemployed were swelled last week, when King Alfonso of Spain and the Royal Household lost their jobs and moved to France.

A light snow Friday night cleared up the air and Saturday the dust was not flying as it did most of the week. A good heavy rain was what people would have liked to see.

Elder Cleon Rolfsen returned home last week from a two year's mission in the States. He has enjoyed his labors immensely while away and is pleased to be home again.

Pres. A. E. Palmer and Elders Ervin Meldrum and Cleon Rolfsen were the speakers at the Raymond Second Ward Sunday night. A very interesting meeting is reported.

The Yo Yo Fever attacked Raymond last week with fatal results, and the end is not yet. Boys and girls walking up the streets with a Yo Yo in their hand is so common it is a strange sight to see one not spinning one. What will be the next fad.

Mr. and Mrs. Roscoe Larsen are home again after spending the winter in Arizona, where Ross went for his health. He says he is feeling fine, and he certainly looks better than when he left.

The Government Seed Cleaner is kept busy now, and is certainly cleaning the seed grain nicely. This machine, doing the splendid work that it does is certainly a big boon to the grain growers of the district, and everyone should make use of it.

Vancouver Firm Buys Local Plant Deal Up in the Millions

Wedding Bells

ANDERSON — EARL.

Wayne Anderson, a son of Mr. and Mrs. N. J. Anderson of Barnwell, and Miss Arminio Earl, oldest daughter of Mr. and Mrs. J. E. Earl of Raymond, were married in the Cardston Temple on Thursday of last week in the presence of a large number of relatives and intimate friends of both families.

Both young people are well and favorably known, and are receiving the congratulations of a host of friends. The groom has just recently returned from a two year's mission, and the bride is still teaching at the Vernal School, south and east of Spring Coulee. She will complete the School year at that place, and they will then live in the Barnwell district where the groom is engaged in farming.

Elders C. E. Alfred and LeRoy Stone of the Raymond First Ward were speakers in Sacramento Meeting at Welling on Sunday afternoon last.

Mr. and Mrs. Ervin Meldrum of Magrath were visitors of Mr. and Mrs. I. B. Roberts on Sunday.

Pres. A. E. Palmer of the Lethbridge Stake was a Raymond visitor on Sunday last with his relatives here.

The irrigation canal from Magrath south is being cleaned out now ready for the water for the summer irrigation.

CANADIAN SUGAR FACTORIES, LTD., SELLS TO BRITISH COLUMBIA SUGAR REFINING CO., LTD. — ROGERS INTERESTS SAID TO HAVE THOROUGH-GOING BELIEF IN BEET SUGAR INDUSTRY AND ARE EAGERLY TO EXPAND — OPERATING OFFICERS TO REMAIN — STRONG DESIRE ON PART OF GROWERS HERE TO INCREASE ACREAGE AND ANOTHER PLANT NEEDED

The Raymond sugar factory has been sold.

Following a conference at San Francisco on Wednesday between E. T. Rogers, president of the British Columbia Sugar Refining Co., with headquarters at Vancouver, and Willard P. Cannon, general manager of the Utah Idaho Sugar Co., with headquarters at Salt Lake City, Utah, the following official announcement was made by Mr. Cannon:

"A deal was closed today with the British Columbia Sugar Refining Co. of Vancouver, covering the purchase by them of our Canadian subsidiary, Canadian Sugar Factories, Ltd.,

owning sugar factory at Raymond, Alberta, Canada."

The deal comes as a result of negotiations which were opened last November, which resulted in two officials of the B. C. sugar company coming to Raymond where they inspected the Raymond factory, then in operation. Some time ago the Canadian Sugar Factories gave an option on the plant, and officials were sent from Vancouver to take inventory. The option expired on Wednesday, on which date the deal was closed. The following Associated Press dispatch from San Francisco today carried further details of the sale as follows:

DISPATCH CONFIRMS SALE
San Francisco, April 23—Willard P. Cannon vice-president and general manager of the Utah-Idaho Sugar Company announced last night the sale of the Raymond, Alta., plant, a subsidiary of the Utah-Idaho concern, to the British Columbia Sugar Refining Company.

Cannon, who declined to state the amount involved, said the deal was consummated here with E. T. Rogers, president of the British Columbia firm.—Lethbridge Herald.

News Notes

The C.P.R. will proceed at once with the construction of the new Stockyards in the city of Lethbridge at a cost of \$40,000. This should relieve the unemployment situation a little bit at least.

The Board of Trade Meeting will be held Monday night May 4th at 8 p.m. in the Town Hall. J. H. Blackmore, B.A. principal of the Raymond High School will be the speaker of the evening his subject being: Raymond and Her High School—Today and Tomorrow.

If you have anything to Sell, Trade, or buy, or if you have lost anything, a Want ad will reach more people in less time than any other method you can use. Try one and see. They always bring results.

A cold north wind blew all day Saturday afternoon and Sunday, and winter coats and galoshes were much in evidence. A flurry of snow Sunday night seemed to still the wind and Monday the sun was shining brightly again.

EXPERT OPTICAL SERVICES

MR. A. MELVILLE ANDERSON, OPTOMETRIST, OF ANDERSON AND MCLEAN, SIGHT SPECIALIST, CALGARY WISHES TO ANNOUNCE HIS REGULAR VISIT TO RAYMOND PHARMACY, THURSDAY, MAY 7th. EYES EXAMINED GLASSES FITTED.

News Notes

The Library and Reading Room continues to call to people of all ages, and interest seems to be growing steadily. Quite a varied selection of books may be found on the shelves, and a number of reference books are there that would give real assistance in many subjects. If you have not visited the Library, you should do so.

The Bee Hive Girls and Boy Scouts of the Stake are putting on the Sunday evening Conference program in the coming May Conference. A really interesting program is promised, and in view of the splendid programs put on by the "M" Men and Gleaners in October, the Vanguards and Juniors in February, everyone will be looking for an outstanding program from the Scouts and Beehive groups. Leaders of the groups affirm that no one will be disappointed.

Despite the high wind of last week, work on the land went ahead steadily, and Saturday night found quite an acreage of wheat and beets in the ground.

Two new houses are in course of construction on the lot of C. Nilsson, one for A. Melchior and one for J. H. Ford. Work is progressing nicely.

Band practices are being held every Sunday, and from now on are scheduled for 4 p.m. in the Opera House. Under the direction of Paul Redd and with the assistance of a few experienced players the beginners are making good headway and are enjoying their work greatly. Other instruments are being purchased to augment what we have now, and a real band is looked forward to before long. Do your part to encourage the boys in this work.

Thumb Sketches Nails By Cy

Front Seats

ISN'T it positively wonderful how much our lives are shaped by the convention laws of society. We'll obey these to the letter and think nothing on occasion of breaking the written law. A man thinks nothing of disobeying a traffic signal but it would be a horrible thing to shake hands with a lady without removing his glove. We're almost universally conservative—not politically speaking, of course—in our obedience to these traditional matters. We won't get married on the 13th, or move the broom with the rest of the outfit when we move from one house to another. And you've heard the ancient saying, "Buy a broom in May and you'll sweep a child away." So one may go on, and on, and on. There is nothing in it, of course not, but away somewhere in the back of our mind something tells us that we can do it just as well on the next day. So the day is set for the 14th. The old broom wasn't worth much anyway, so we'll leave it behind; or the old broom is in pretty good shape, leave the purchase of a new one until the first of June.

So it is with precedence in the parade. It matters not whether the show is at the opening of parliament or merely into the dining room for dinner with an old-time friend.

There is much to be said sometimes in favour of clinging to the old and honored usages of assigning merit to the front seat or first place. Here, again, much depends upon the point of view. Ernest Rhoades, the secretary of the big Grain Show of 1932, would at once say that the chap who wins a first place or a front seat in one of the grain classes against world competition will certainly merit the honour and in addition receive a substantial pot of money for his labour in getting there.

Oh, yes, one's attitude towards these ancient traditions depends upon one's viewpoint, and sometimes upon our own estimate of our own importance.

A private soldier, so the story goes, bought a ticket and entered a theatre to enjoy a pleasant evening. As he wended his way up the aisle towards the stage an usher met him, saying, "You can't sit here. The front is reserved for officers." As Tommy retraced his steps to find a seat in the rear he shot back, "The one I came from wasn't." When I was a youngster at school the front seat was reserved for an entirely different reason, and there was everything but merit and honour attached to the occupancy of it at that.

News Notes

A Sale of Home Cooking, and Sewing, followed by a Dance, with a Hungarian Orchestra furnishing the music is being held this afternoon and evening in the basement of the Catholic Church. Everyone is invited.

Max Elbert of Glenwood has a black sow that has mothered 53 pigs in the past year. That is a pretty good record and seems to be indicative of profitable stock-raising.

Following the recent baling test of the A. P. Cen. well at Spring Coulee the ones in charge have just about decided to deepen the well to the Malison line.

According to local people returning from various points, we are still in a very favorable condition compared with most places. This sounds good doesn't it.

B. A. NEALE

BASEBALL PROSPECTS BRIGHT

A very enthusiastic meeting was held at King Motors on Sunday last of all those interested in Baseball. A good crowd was present and the condition discussed at some length.

M. R. Wolf was again chosen as team manager.

Ross Humphreys will have charge of transportation. Percy Foulson will handle the gates and Reg. Cooper will be responsible for the grounds.

Raymond is now affiliated with the Provincial Baseball organization and the sense of the meeting was that Trophy and Exhibition Ball be played this summer.

A meeting of the Southern Alberta Baseball Association is called for Magrath on Sunday, May 3 at 2 p.m. in the Town Hall, and here officers will be chosen for the year and a decision reached regarding a league.

Manager Wolf has some new material lined up and expects a great year. Practices will begin as soon as the weather warms up a little more, and everybody interested is asked to boost baseball this year as never before.

With a revolution going on in Honduras over the week-end, foreign residents were forced to take refuge in the U. S. Warships that were there guarding the country.

A \$60,000 fire which gutted 9 stores and threatened the entire town broke out in Turner Valley village in the heart of gas field early Monday. Defective wiring is thought to be the cause of the fire, and a barrel of gas exploding, gave the flames a fine start. By the help of the Calgary Fire Brigade the flames were extinguished, but not until most of the business section of the town had been destroyed.

Health Service

OF THE

Canadian Medical Association

Edited by

GRANT FLEMING, M.D. — ASSOCIATE SECRETARY

BLOOD PURIFIERS

We often hear persons speak of their blood as being thin or in a bad condition, and this, most frequently, in the spring of the year.

There is a popular belief that when spring comes, the body should be given a purge to rid the poisons which are supposed to have accumulated during the winter, and to follow this by a tonic to purify the blood.

It is true that by the time the spring comes, there are a number of people who do not feel well. They are all tired out, and their appearance answers the description they give of themselves. No wonder they feel miserably and look it! For months they have led the kind of life which would make anyone lose his health. They shut themselves into hot rooms with no ventilation, take no exercise, never go out into the fresh air, and eat just as much as they do when they are active during the summer. It is bad habits of living during the winter months which cause the trouble; the blood has nothing to do with it.

Prevention is better than cure, but if you have not been taking reasonable care of your health during the winter and you are now feeling the results of your carelessness, you will want to know what you should do.

The only way to get back what you have lost is by paying attention to the points you have neglected. Health which you have lost by your indifference

will not be regained by the use of Spring Tonics. Health is found in fresh air, exercise and attention to the diet.

The body is quite capable of ridding itself of its waste material; if it is given half a chance. Use water internally and externally. Take a warm bath at least once a week to help the skin to function properly. Drink a glass of water or two before breakfast and between each meal to help elimination. Cultivate regular toilet habits. Fresh cool air acts as a stimulant for the whole body and, together with sunshine, is nature's own spring tonic.

The body cannot be healthy unless it is kept in good running order by exercise. The big muscular parts must be kept in motion.

Whether it is work or exercise brings them into use so long as they are used.

Eat according to the work you are doing. Let your diet consist of a wide variety of foods, and remember that milk, green vegetables and fruit should be used regularly.

The blood is as clean and pure in the springtime as at any other time. Alterations in the blood are brought about by certain diseases, but not by the seasons of the year.

Blood purifiers are not required. What is needed, and all that is needed is healthy living.

Questions concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

THE CLEAN-UP CAMPAIGN

If we want to have a City Beautiful, and of course we all do, then we must do our share to make it so. This requires more than wishing.

The Annual Clean-up Campaign, sponsored by the Town Council, and various organizations of the Town are endeavoring to create a sentiment that will result in a real Clean-up, and May 6th has been set for the final wind up of this campaign. It is more than a worthy cause, it is a very essential one, and everyone who occupies a home within the boundaries of the Town, whether owned or rented should take great deal of pride in the appearance of their yards, lawns, gardens, etc.

There is a great deal of satisfaction in the feeling that you have done your bit to make the town look better. You may not be able to have a beautiful lawn, nor a fine garden, and there may be a number of reasons for this. But everyone can have a clean, sanitary and tidy yard, at least, and at the cost of this is a little strong arm on the rake and fork to gather up the rubbish and get it ready for removal by the city wagon. We can all do that.

Then there is the sanitary side of the question that we must not forget. Old manure piles, heaps of decaying rubbish, empty cans, bottles and old rotting rags, clothes and bags, make the finest breeding place imaginable for Mrs. Housefly and her multitudinous family. There is no question but what these untidy yards are the source of millions of flies, that we could very well do without. We always have plenty anyway, but if everyone would keep a clean tidy yard, and swat the fly from the first appearance he makes, we would have a great deal less bother with this pest.

Let everyone in Raymond line up with this campaign. Get your rubbish ALL gathered up, ready for the wagon, and have it removed, and the fly nuisance correspondingly reduced. Streets, lanes and alleys may need some cleaning, but where possible everyone should be interested in these matters to help clean up the town, not only in front of their houses, but all around the place where filth and decay may be the cause of serious trouble, and probably an outbreak of some contagious disease.

Let us not treat this question of civic cleanliness too lightly. It is one of considerable weight and importance, and should be so considered.

News Notes

Geo. W. Green and son of Lethbridge were Raymond visitors on Wednesday afternoon.

We will soon hear the familiar Batters up of the Baseball game. This is a sport where everyone works, even the rooters. Let's support the local team this year and forge ahead to a greater season.

State Quarterly Conference is announced for Saturday and Sunday, the 9th and 10th of May. Interesting and instructive programs will be given at each meeting.

R. W. Low of New Dayton, was a business visitor here on Monday of this week.

The Closing Dance at the High School is being held Friday night, April 24. A good time is assured, and everyone is invited to attend.

The Sunday School Survey is still in progress, and every Ward Sunday School in the Stake makes every effort to put on their best front these Sundays.

Gardeau stuff that happened to be above ground, spent a rather chilly night Tuesday, after the storm, when quite a layer of ice froze on tubs, etc., that were left out.

Here and There

Over 1,600,000 lbs. of salmon were caught in the coastal waters and rivers of Quebec last year, or 615,000 lbs. more than in 1929.

Potato shipments from Halifax are now over for the season and have been declared to be the biggest in the history of the port.

Illustrating the growth of tourist travel into Canada, 95,509 foreign cars entered Canada in 1929, while in 1930 the total was 5,403,458.

At the end of February of this year, official registration of radio sets in Canada totalled 505,758, an increase of \$1,612 over the similar period of last year.

Cadmium, a by-product obtained in the production of zinc, was produced for the first time in Canada early in 1928 at Trail, B.C. Used for plating purposes demand for it has increased very rapidly.

The Province of New Brunswick's largest bond issue was sold at the most favorable price in 25 years when a bid of 99.438 was accepted for \$5,215,000 4 1/2 per cent. 30-year bond issue, making the interest cost to the province 4.52 per cent.

New bridges to span the St. Lawrence and other rivers are to be built by the Quebec Government this year at a cost of \$3,000,000. They will be built at points that will link up the highways in the province into a whole.

First large cattle consignment to move east since November, 15 cars or 322 head of cattle for export to Great Britain, left Winnipeg by special Canadian Pacific train which totalled 37 cars of stock, including 22 cars for eastern Canada points.

A single British Columbia Sitka spruce may contain 8,000 to 10,000 feet board measure of lumber. Lumber used in building an ordinary five-or-six-roomed frame house is estimated at 15,000 feet, hence two good-sized Sitka spruce trees would suffice for the house.

Crowds estimated at 500,000 people watched the Empress of Britain sail down the Clyde from her birthplace at Clydebank, to undergo trials. The ship was escorted by six tugs, a police launch and six airplanes. This \$15,000,000 ship was built for a speed of 24 knots and has already done 26 knots in preliminary trials.

Ten minutes terminal stop at St. Ignace, Ont., and a chance greeting between G. C. Hay and William Ardell, Canadian Pacific mechanic, spanned 45 years of separation and silence between Ardell and his family. It appeared in conversation that Hay was Ardell's nephew and the latter will now visit his family in Vancouver whom he has not seen for nearly half-a-century.

The Bay of Fundy steamer Princess Helene will have her first summer season this year and with the opening in June of the Lakeside Inn, new C. P. R. hotel at Yarmouth heavy tourist traffic is looked for through Saint John from both the United States and Canada. The Princess will also visit and the Pines at High will also attract a large influx of visitors.

Grading crews are now busy on the Lethbridge-Carlton Highway, and are working from Spring Coulee east. It will be a source of real joy when we get the gravelled highway to our doors.

The body of Helene Geertrud Junghaus, a German girl who registered at the American rooms in Lethbridge on Monday afternoon at 4 p.m., was found by her landlady at 6 a.m. Tuesday morning when she went to her room to call her. The case is believed to be suicide as an envelope containing Strychnine was found in a small suitcase in her room. Investigations are going forward into the case.

Hon Wm. Atkinson

BRITISH COLUMBIA's Provincial Committee of the World's Grain Exhibition and Conference is headed by Hon. William Atkinson, who holds the agricultural portfolio in the government of the Pacific Coast Province.

Mr. Atkinson is a native of Ontario, having been born at Whitby in 1868. He was educated in the public schools of Whitby and Seaforth.

When Hon. S. F. Tolmie was called upon to head the government of British Columbia he invited Mr. Atkinson to his cabinet as Minister of Agriculture. Mr. Atkinson had been elected to the Legislature in July of 1928 for the Chilliwack constituency and was sworn in as a member of the government a month or so later, being re-elected by acclamation.

In the Garden

-Gordon Lindsay Smith-

EQUIPMENT

Unlike golf, hunting, fishing and other recreations the equipment required in gardening is inexpensive. A great deal can be done with a hoe and rake, though easier and better results are secured where one provides himself with a little more generous support. Of course in the larger place in the country a great deal of the preliminary and incidentally the most fatiguing work can be done by the horse or one of the small garden tractors now coming into prominence. The seed bed can be plowed and cultivated and generally put in a fine state of tilth which is so important. A good seed bed, by the way, is half the battle as assures even and quick germination, destroy most of the weeds and conserves moisture. If no horse or tractor is available a spade will have to be used, and this tool, like most of the others used, will greatly benefit from a trip to the grindstone. If one hoe only is to be used, a fairly narrow one is advised, as this will facilitate the work of weeding, thinning and close cultivating. A rake is also essential for covering the seed. It is a good plan to nick off twelve, fifteen and eighteen inch lengths on the handles of the hoe and rake for measuring distances between rows. A ball of stout string and a dozen or two stakes for marking will be invaluable. Digging forks are advisable for early working and they will also come in handy when the potato crop is to be harvested. Later on one will require a small trowel, clippers and a lawn mower. A small weeder, shaped like the hand with claws or cultivators attached will save much work in the flower garden, while the writer can also recommend from personal experience one of those hand cultivators about twelve inches wide, with three to five removable teeth for general work in the place of a hoe or regular horse or tractor pulled cultivator.

SOIL CONDITIONS

As stated on many a previous occasion, soil is the foundation of all gardening and if this is put in proper shape right at the start

success is only a matter of course. A heavy clay can be greatly improved by the plowing or digging in of straw manure and vegetable refuse such as green growth of clovers, fall rye and similar plants. This, with thorough cultivation will do much to loosen this type of soil, prevent baking and make it lighter and more easily penetrated by air and moisture. The same treatment will hold good for light sandy soil the green manure or vegetable refuse increasing the humus content in the soil and keeping it cooler and more moist in the hot weather. Fertilizer, either commercial or manure, is usually advisable to stimulate growth. For quick green growth a commercial fertilizer high in nitrogen is advocated, while bone meal, pulverized sheep manure, and a good mixed chemical fertilizer is advisable for pushing steady growth of both green material, roots and flowers. The fertilizer should never be applied so that it is liable to come in direct contact with seed, roots or stems but rather before sowing or alongside the rows.

News Notes

Miss Orpha Vance was a Cardston visitor on Wednesday last.

Tenders are called for the re-roofing of the Alberta Government Telephone Exchange building here.

Mrs. Emma Vance is at present visiting with her daughters, Mrs. Frank, and Mrs. Clark Olsen at Glenwood.

Edward F. Kiddle and Miss Elizabeth Procter of Stirling were married in the Cardston Temple on Wednesday of last week.

Mrs. Earl of Mountain Aiew is visiting with her son Joseph and family for a few days now.

Born to Mr. and Mrs. C. R. Wing, on Friday, April 17, a baby girl, Dr. Leech in attendance. Mother and babe are doing nicely.

Arlo Palmer purchased a used Ford Sedan, Model A, from King Motors on Saturday last.

Did You Ever Stop To Think?

WM. SOUTHERN, Jr., Editor of the INDEPENDENCE (Mo.) EXAMINER, says:

"Has it ever occurred to you that an advertisement in a newspaper is inserted for the benefit of the advertiser and not as a favor to the newspaper?"

"Not so very many years ago most small newspapers, weekly and daily, begged for advertising and received advertising from bankers and merchants who gave it and at the same time impressed the editor that it was a favor to him."

"Nowadays the newspaper which would accept an advertisement on these terms is not worth the name of a newspaper."

"The merchant or the manufacturer or the man who inserts a want ad is not doing it from any philanthropic motive. He expects results. If the advertisement brings in the business or sells a cow or an automobile it pays for itself many times over."

"Has it ever occurred to you as a newspaper publisher that to ask for an advertisement as a favor is to admit that the advertisement in your paper is not worth a thing from a business standpoint?"

"Has it ever occurred to you as an advertiser that when you get mad and stop your advertisement in any newspaper you are not hurting the paper, but that you are taking money out of your own cash drawer and hurting your own business. If this is not true you are foolish to run advertisement of any kind at any price."

"The newspaper can afford very handsily not to run your advertisement, but you cannot afford not to advertise."

"IT IS AN OLD STORY IN WHICH THE SUBSCRIBER WRITES, 'STOP YOUR PAPER,' AND IS THEN VERY MUCH SURPRISED TO DISCOVER THAT WHILE YOU DO NOT SEND THE PAPER TO HIS ADDRESS, THE PAPER HAS NOT STOPPED BUT IS SOMEHOW GETTING ALONG WITHOUT HIS SUBSCRIPTION."

The grounds surrounding the Memorial and the Town Hall have been levelled off now, ready for planting, and when the flowers, etc. are in bloom this corner will certainly be a beauty spot.

IN APPRECIATION OF A GREAT VICTORY

A thoughtful presentation took place Wednesday night at the banquet tendered in Montreal to the Canadiens Hockey Team, winners of the Stanley Cup for the second time in succession and which is emblematic of the Professional Hockey championship of the World.

In appreciation of retaining the trophy in Canada and for the splendid showing made by the individual players of the team, the Gillette Safety Razor Company of Canada, Limited, presented each member of the team with a beautiful razor and complete shaving outfit. Each set was imprinted with the individual's name in gold leaf lettering.

The presentation was made by Mr. J. S. Lavene, Managing Director of the Company who said "I do not know of a better way to show our appreciation of the very fine performance of the Canadiens team this season — it is indeed a privilege and a pleasure to do our bit by presenting to each player a Gillette Safety Razor."

Mr. Lavene presenting gift to Howie Morenz, the great scintillating star, while Fred Hunt, manager of the Montreal team, looks on.

Donald Buchanan Writes Article on L.D.S. Settlement

"Canadian Geographical Journal," published by the Canadian Geographical Society at Montreal features in its current issue an article from the pen of Donald W. Buchanan of Lethbridge, and who is now a student at University College, Oxford. The article, which is on "The Mormons in Canada" is lavishly illustrated in keeping with the essentially pictorial nature of the fine new Canadian monthly. There are splendid pictures of the Cardston temple, sheep scenes, irrigation views, the sugar factory at Raymond, the L.D.S. church at Lethbridge, the late President Charles O. Card, President E. J. Wood, and others.

The accompanying reading matter has been carefully prepared by Mr. Buchanan who has written a comprehensive and interesting survey of Latter-day saint settlement in Alberta from the advent of the pioneer band under Charles O. Card back in 1877 to the present time. Due reference is made to the part the Latter-day saints have played in agricultural development as pioneers in wheat growing, mixed farming and sugar beet culture. The writer closes his article with the words: "The Mormons have indeed been excellent settlers, and have added an element of strength to Western Canada."—Lethbridge Herald.

News Notes

D. L. Gilbert took out a new Ford Town Sedan from King Motors last week.

Born to Mr. and Mrs. N. Christian on Monday April 23 a son, Dr. Leech in attendance. Mother and babe are doing nicely.

Mr. and Mrs. Ross R. May of Mayrath were Raymond visitors on Wednesday of this week.

Elder J. A. Ririe and J. Earl Harker of the Magnolia Second Ward were speakers here at the First Ward Sunday evening. Elder Ririe spoke on Charity and Sabbath observance, and Elder Harker's subject was "Faith, the moving power of all action." Mrs. Ririe and her two daughters were also present and the two girls contributed a violin duet, accompanied by their mother. Misses Gertrude and Marie Redd played a Piano Duett, both of which numbers were very much appreciated.

FIRESTONE, pioneers of balloon tires, announces a new tire which surpasses in strength, in safety and in wear-resisting qualities, any tire that has ever been built. This new tire, at no extra cost, incorporates two new added features—

Balanced Construction—which eliminates "tramp" or "shimmy" and is the only way of holding tires on the road at high speeds.

The Double-cord Breaker—which increases adhesion between the tire body and tread by 69%. It insures that absolutely no road shocks can reach the body of the tire and cause a blowout, and, no matter what the speed or the usage, the tread simply cannot be torn off—The tire is safe at any speed!

Firestone Gum-Dipped Tires have won and held all official records for mileage and endurance. You cannot afford to do without the extra strength and safety that only Firestone can give you. See your nearest Firestone Dealer today—he serves you better and saves you money.
